| 8 - Sky Input | (07:46 - 146 BPM) |

Total time : 74:59

Style : Crazy melodic psychedelic trance.
Mastering : Tim Schuldt @ 4CN Studios

The Suntrippers proudly present the release of Filteria's first album.

Forget about stereotyped formatted boring Psytrance, forget about the repetitiveness, Filteria has the truly melodic blasting sound we've been waiting for years !

Jannis "Filteria" is a young producer from Stockholm, Sweden.

His first contact with psychedelic music was in 1996 after buying some Goatrance compilation. He got amazed by the energy of the music and slowly started buying equipment to make something of his own. After 5 years of tweaking and playing around with midi, he bought himself a new computer and started this psychedelic project in 2003.

As an artist he tries to keep the true spirit of psychedelic trance by having lots of melodies and sound-layers. All his tracks have at least 3 melodic climaxes. He has been strongly influenced by the sound of 96-97 especially by the Italian maestros Etnica-Pleiadians but he found his "Filteria style" and keeps it up to date.

His first live performance was in late 2003. Since, he's been sending dance floors to space several times both in Sweden and Europe.

Filteria has also tracks scheduled for release on compilations, including the forthcoming "Fluorotronik" compilation on Tranceform Records.

Tracks information

1 – Operation Pulse : Spacey morning track with a real long sunshine intro. Not too much power...just what's needed for a live jumpstart. Well, after 3 minutes you get a one way ticket to the Stars !

2 - Stars (*StarStuff Remix*) : Massive eastern melodies. Almost 10 minutes of madness and psychedelia. Four versions exist, two live ones, this one is something between the original made in January and the live remix for some act in May.

3 – Navigate : Very intense chemical-free trip with never-heard-before Jupiter6 distortions and lots of overdrive-self-ignition tweaked melodic parts. You are warned !

4 – The Snuggling Snail : "I watched the snail crawl along..." Kinda unique track you have to judge by yourself. It was successfully tested on several crowds :) Many many melodies...

5 - Domestic Modulator : An absolutely demented piece of music to begin with the second half of the album. Prepare for the oxygen warp into a mental vortex passing stars towards your internal horizon, riding colourful melodies.

6 – Ultimator ! : The name says it all. We believe this is one of the most intense pieces Filteria has ever created. Screaming lines everywhere, melodies coming from all directions... Changing all the time, twisting, twirling...

7 – Galactic Rays : Maaaaaaad !!! Over 8 main galactic melodies...Surviving to this one on a dance floor is some kind of challenge ! Took three days to make, six to mix it.

8 – Sky Input : Inspired by the sunset & sunrise of the Greek island Santorini. First tested on the Belgian dance floor, it gave lots of screaming and happy faces. Atmospheric, beautiful, and insane melodies at the same time.

Label History

The label *Suntrip Records* was set up in the summer of 2004 by Fabien "Mars", one of the founders of the Psynews.org website and Joske "Anoebis", a famous Belgian DJ and party-organiser.

They met for the first time in 2000, for a party, and since then they gather regularly, sharing the same love for melodic psychedelic trance.

Because during the last three years "full on" releases were getting more and more stereotyped, they started talking about creating a label, so as to release more melodic psy-trance like *in the good old times*, but with modern production.

When Fabien discovered *Filteria* from Sweden, he believed in the quality of this melodic psychedelic trance artist and soon the first steps were set. The first *Suntrip* release is Filteria's *Sky Input*. Other contacts are already taken for future releases...

Mission

Showing alternatives to nowadays' psy-trance scene, *Suntrip* mainly focuses on melodic psychedelic trance. Any other *original* ideas, like morning progressive, ambient, ethnic, are welcome too.
