Label Profile:

Showing alternatives to nowadays' psy-trance scene, **Suntrip** mainly focuses on melodic psychedelic trance. Any other *original* ideas, like morning progressive, ambient, ethnic, are welcome too.

History:

The label **Suntrip Records** was set up in the summer of 2004 by Fabien "Mars", one of the founders of the Psynews.org website and Joske "Anoebis", a famous Belgian DJ and party-organiser.

They met for the first time in 2000, for a party, and since then they gather regularly, sharing the same love for melodic psychedelic trance.

Because during the last three years "full on" releases were getting more and more stereotyped, they started talking about creating a label, so as to release more melodic psy-trance like *in the good old times*, but with modern production.

When Fabien discovered *Filteria* from Sweden, he believed in the quality of this melodic psychedelic trance artist and soon the label was set up...

A Label-party was organized in march 2005 in Brussels involving *Filteria* and *Ka-Sol*, two of the artists appearing in **Apsara** (tr.5 & tr.6).

One week later, another party involved *The Lost Buddha* (tr.4) and *Four Carry Nuts* (mastering).

Previous Release:

SUNCD01 : *Filteria - Sky Input* (nov 2004)

Artists Profile:

The **Apsaras** are the celestial Nymphs, elegant dancing women, incarnation of the Pleasure Principal. They are visions of voluptuous beauty that have stamped themselves on the Indian psyche as the ideal feminine form. Their name literally means "moving in the water", or "water that moves".

Across 9 truly melodic tracks, the most talented entertainers in the Indra's court and supreme masters of dance and song will guide you as you dream, fly, ride, dive and smile :)

- **Aes Dana** from France is known for his albums, the *HUVA Network* collaboration and lots with *Ultimae*. The Master made especially a slow floating dreamy overture to make your spirits wide open.

- **Yesod** is a new amazing multitaled Swedish artist. His track will accelerate your brainwaves. Twirling melodies and flutes all around.

- **Khetzal** from France has tracks on *Fahrenheit 2*, *Peace Therapy* and *Spiritual Moves 4*. He comes this time with an extraordinary trippy colourful explosion made with the dancefloor crusher DJ Chaï. Take off !

- **The Lost Buddha** is embodied by Felipe from Lisbon. He's already been playing in his country, and Belgium. Close your eyes and make a tour round the world....Imagination has no limits.

- **Filteria** from Sweden has already released the wonderful "Sky Input" album in 2004 on *Suntrip* and a track on *Etnicanet's Phase 3*. He opens here a wormhole with his analogic thrusters to drive you through the sky !

- **Ka Sol** from Sweden, a *Shlabbaduerst* pillar also released on *Stone Age* and *Boom!* strikes you with this track made of merciless residual radiation and twisted fire dragons!

- **Ypsilon5** from Sweden has released his album "Binary Sky" and more on *Tranceform Records*. "Titanium" is the perfect track to listen to as the storm reaches an Ocean turning into a metallic mirror...

- **Goasia** from Serbia and Montenegro already showed his talents with *Kagdila* and *Cosmic Leaf Records*. His track readies you for a climax on top of the higher mountains, where hearts beat hard and fast.

- **Radical Distortion** from Greece have been both producing since 2000 and 2002 under different names. End the trip on a morning Sundance with brilliant happiness and ultraviolet!
