Label Profile:

Showing alternatives to nowadays' psy-trance scene, *Suntrip* mainly focuses on melodic psychedelic trance. Any other *original* ideas, like morning progressive, ambient, ethnic,... are welcome too.

History:

The label *Suntrip Records* was set up in the summer of 2004 by Fabien "Mars", one of the founders of the Psynews.org website and Joske "Anoebis", a famous Belgian DJ and Party-organiser.

They met for the first time in 2000, for a party, and since then they gather regularly, sharing the same love for melodic psychedelic trance. Because during the last three years "full on" releases were getting more and more stereotyped, they started talking about creating a label, so as to release more melodic psy-trance like *in the good old times*, but with modern production.

In June 2005 the second release was a compilation called *Apsara* which was a mixture of famous melodic Goa trance producers and new talents.

In October 2005 the third release showed the debut of the French artist *Khetzal*, known from numerous releases on labels as *Ultimae Records* and others. He gave us a great mixture of downtempo and uptempo spiritual and floating melodic goa trance.

Previous Releases:

SUNCD01 : *Filteria - Sky Input (nov 2004)*
SUNCD02 : *V.A. - Apsara (June 2005)*
SUNCD03 : *Khetzal - Corolle (nov 2005)*

Forthcoming Release:

SUNCD05 : *Ka-Sol* debut album (spring 2006)

Artist Profile:

After his stunning first album in 2004, *Filteria* is back with "*Heliopolis*".

Heliopolis - greek for city of the sun - describes perfectly *Filteria*'s music: Massive superpsychedelic full-on goa trance opening windows on enlightening journeys into the sun.

This year, *Jannis* improved his production and style, still hardcore dancefloor material with tracks like "*Speech Module*" or "*Rotate to Vibrate*", but also more storytellings with "*Mind Expansion*" or "*Reflected*". The album also includes a remix by the Swedish ambient master *Solar Fields* and a breathtaking remix of the legendary "*Lunar Civilisation*" track by *Crop Circles*!

Jannis "Filteria" Tzikas is a producer from Stockholm, Sweden.

His first contact with psychedelic music was in 1996. He got amazed by the energy of the music and started buying some synths to make something of his own. After 5 years of tweaking, he bought himself a new computer and started this psychedelic project in 2003.

As an artist he tries to keep the true spirit of psychedelic trance : No stereotyped formatted boring bass & breaks, no repetitiveness. If you're addicted to melodic mornings, twisted unreal melodies and crazy climaxes, *Filteria* has the true melodic morning sound you're looking for!

His first live performance was in late 2003. Since, he's been sending dance floors to space in Sweden, Belgium, Finland, Poland, Turkey, Mexico and is scheduled for festivals next summer.

Filteria released his first album "*Sky Input*" in November 2004 on *Suntrip Records*, several tracks on compilations in 2005, including *VA-Phase3* and *VA-Explorers* on *Etnicanet* and *Apsara* on *Suntrip*. He also has tracks scheduled with *Tranceform* and *Kagdila* records and trusted *Suntrip* again for "*Heliopolis*".
