### Label Profile:

Showing alternatives to nowadays' psy-trance scene, Suntrip mainly focuses on melodic psychedelic trance. But Suntrip is open for other original psychedelic music like ambient, downtempo, forest trance or melodic progressive music!

### History:

The label *Suntrip Records* was set up in the summer of 2004 by Fabien "Mars", one of the founders of the Psynews.org website and Joske "Anoebis", a Belgian DJ and Party-organiser. They've been sharing the same love for melodic psychedelic trance for years. Because during the last years "full on" and "dark" releases were getting more and more stereotyped, they created Suntrip so as to release more melodic psy-trance like *in the good old times*, but with modern production.

The result was the debut album of "Filteria" in November 2004, called *Sky Input*, which surprised the Psytrance world, and because of the success, in June 2005, the second release was a compilation called *Apsara*. This cd was a mixture of famous melodic Goa Trance producers and new talents.

October 2005 saw the debut of Khetzal, French, known from numerous releases on labels as Ultimae. He gave us a great mixture of downtempo and uptempo spiritual and floating Melodic Goa Trance. Then, Filteria, was ready with another mind blowing piece of uplifting psychedelic music. His second album, *Heliopolis*, was released in the winter of 2006. After that we had proof Suntrip isn't only about positive melodic music: veteran Ka-Sol released his *Fairytale* album on Suntrip in April 2006. A perfect mix between melodic, dark and twisted soundscapes ; harder but dancefloor friendly, described as "Forest Trance".

January 2007 brought the more typical "Suntrip" compilation *Twist Dreams*. A mixture between famous artists like Ra, Talpa and Khetzal and less famous Goa Trance artists like Afgin and Cosmic Silence! In June 2007 Dimension 5's classic *Transdimensional* (originally released in 1997) was remastered & re-released, and even today it still blows the dancefloors away !

### Artist Profile:

Balint Tihamer fell in love with electronic music in the 70's when he heard groups like Tangerine Dream and Vangelis. Since then he continually followed the development of electronic music. When in the 90's Goa trance was formed Balint was immediately hooked. For him this subgenre combines past, present and future of electronic music. In the beginning of this millenium Balint started to produce his first Goa trance and ambient tracks. When he explored the music, he started to create an own unique sound. Goa trance with up to date production but with the complexity, melodies and spirituality of old-style Goa music.

His first tracks were released in 2004 on the Pure Planet compilation on Kagdila Records and not much later this was followed by more releases on Cosmicleaf and Suntrip Records, where he was published on the Apsara compilation. In 2006 he released a splitted album with Omegahertz called *Purple Energy 2*, and more single tracks were released as well on USTA, Kagdila and Cosmicleaf. Around that time Kanc Cover, earlier part of Opsy Projects, became a member of Goasia as well.

2007 will be the year where the first full album of Goasia will see the daylight on Suntrip Records, but releases on other labels are planned as well. Also fun to know is that Goasia is still working with analogue synths only!

### Sales Points:

Balint Tihamer is known as one of the new stars creating melodic Goa trance. His style can be described as Goa trance with up to date production but with the complexity, melodies and spirituality of old-style Goa music. Music for DJ's that want to give the dancefloor a big smile! Most of the tracks are real tsunami's for the dancers, although Sunrise can be described as an epic Platipus-like trance anthem and Pray for Rain is an ambient beauty.

In the past Goasia released a split-album with Omegahertz on Unicorn and numerous ambient and Goa trance singles on various labels as Cosmicleaf (from which we licensed Pray For Rain), Kagdila, USTA and of course Suntrip Records, where he was featured on the classic "Apsara" compilation. His sound seems to be very popular all over the world as he just returned from a tour in Japan and has gigs soon in Belgium and other places around Europe!

For all classic Goa trance lovers... Don't miss this!
